Entence Porces Continue Their Successes in Macedonia and Turkey-Advices From Berlin Indicate That There is Apprehension Over the Long Range Guns of the Americans-British and French Progress in the Surrounding of

on the highly important St. Quentin sector in France the British and French armies after hard fighting have drawn more closely their lines in the investment of the town on the northwest, west and south. The stubborn resistance of the Germans, in defense and in counter-attack, has been unavailing except to impede the progress of the men of the armies of Field Marshal Heits and Georgia Departy. of the men of the armies of Fiel Marshal Haig and General Debeney. In Macedonia the Bulgarian and

German troops are still faced with disaster; in Palestine the remaining Turks seem to have scarcely a chance furs seem to have scarcely a chance for escape from the British forces and friendly tribesmen who are closing in upon them east of the River Jordan. More than 40,000 prisoners and 265 guns have been taken by the British, and yet General Allenby's appetite for further emoluments for his nard cam-paign has not been satisfed.

plans seems appreciably near.

LOOKS LIKE CONFIRMATION

OF DISCONTENT IN GERMANY Washington, Sept. 25.—There was just one thing in Chancellor Von Hert. ling's speech before the main com-mittee of the reichstag yesterday that interested American officials. It was his frank and open admission of the seriousness of the internal situation in

Jermany. Germany.

Following so closely upon the formal declaration by the social democrats of the conditions upon which their party would consent to participate in the government, the speech was regarded as intended primarily for internal consumption in Germany. It is regarded as part of a plan to persuade the Socialists to come to the straits by demonstrating that there are no substantial differences of prinare no substantial differences of prin-ciple between their party and the gov-ernment. The marked similarity be-iween the statements made by Von' Hertling regarding the basis of peace and those principles laid down by the

socialists at once was noticed.

When attention was directed to Ven Hertling's statement that he had had Herling's statement that he had had no response from the United States to his proposal last February to accept in principle the conditions of peace laid down by President Wilsen, officials pointed out that the president himself had effectually exposed the insincerity of You Herling's proposal when, in his Baltimore speech, he pointed to the crime against Russia as a sufficient reason for rejecting any as a sufficient reason for rejecting any offer to discuss peace "Brest-Litovsk fashion."

rurinermore, it was declared that there could be no talk of peace until the last German and Austrian soldier has been withdrawn or driven from

the occupied territory.

The inclination of the government to regard the speech as insincere and to regard the speech as insincere and unworthy of consideration is based upon the feeling that in scarcely a single point does the premier make an unqualified declaration of adherence to the fourteen principles laid down by President Wilson. Everywhere in his speech officials said there were limitational and small surface.
